

## A Message To Our Friends and Family

We are excited to be open and ready to see you!

We have been working behind the scenes to prepare and follow the proper steps for the safety of you as well as our team. We have strived to create a relaxing *Wellness Spa* escape and we look forward to providing that for you. These are unusual times and we are following all recommended guidelines from the city, state, and federal government.

I receive weekly reports as to the best protocols to keep everyone safe, so please note, **safety** and protecting my team and our guests is my number 1 priority.

We are taking COVID-19 very seriously.

- ✓ Temperature will be taken once you have entered the building
- ✓ Disinfect each treatment room between appointments
- ✓ Space appointments accordingly to limit the capacity of the spa at any given time
- ✓ Masks – our staff will be required to wear masks
- ✓ If you have been ill or around someone who has been ill, please wait 14 days and reschedule your appointment.

Thank you for your patience, understanding, kindness and support during this difficult time in history. We are hopeful these guidelines will ease up soon.

In Wellness and Healing!
